Program: Exhibition

Irving Penn and Issey Miyake Exhibition

This exhibition was designed to display sketches and posters produced by Irving Penn, in collaboration with Issey Miyake. The exhibition begins with a video installation in a room closed off by paper tubes, followed by a large screen slide show projection and an installation which takes advantage of the colonnade of concrete columns. The emphasis of this exhibition was to capture the essence of Issey Miyake's designs and the photography of Irving Penn in an utmost, straightforward manner.
