

# Vierendeel Dormitory

Year: 2006  
Location: Japan  
Program: Residential

Status: Completed  
Type: New-built  
Structure:

The structure of this company dormitory is organized by two parallel Vierendeel trusses that sit on eight columns, and a series of perpendicular secondary trusses. Within this rhythm of walls are 23 single apartments and a guest room, which float above the openable common area and parking below.
