

Médecins Sans Frontières -New Operation Center-

Year: 2017

Location: Switzerland

Program: Office and Headquarters

Status: Competition

Type: New-built

Structure: Timber Structure

A new Geneva operation center planned for the Médecins Sans Frontières. The Geneva Operational Center will provide work and social spaces for more than 250 MSF staff. An array of timber/steel hybrid portal frames that are rotated 45 degrees against the building grid provides shading against the west sun, as well as air flow throughout the height of the building.
