Program: Exhibition

Paper Log House for UAE National Day Event

For a UAE National Day event taken place on December 2, we built two Paper Log Houses: Arabic Coffee House and Japanese Tea House.

The two houses were then relocated to Wajima City on the Noto Peninsula, a city yet to recover from the devastating earthquake on January 1, 2024. Thanks to a generous donation from the Embassy of the United Arab Emirates in Tokyo, as of February 2025, one house is serving as a temporary hair salon, while the other is used as a temporary studio for Wajima lacquerware production.
