

Year: 2009

Location: United States

Program: Accommodation, Public Bath / Spa

Silver City Resort

The Silver City Resort is a well-known and historic lodge in the Sequoia National Park, in California. On the site there are chalets, cabins, a playground, store, parking, and a workshop and numerous natural features, including creeks, rocks and trees. Many of the structures are historic, dating back to the 1930's. The owner wanted a new Lodge and Spa to be nestled in the woods. The spa with sauna, steam room and hot tubs overlook a gorge, providing dramatic scenic views of nature.
